Aaron,

Good call today and always appreciate talking over site issues with your teams. FYI, I know Chris and others at MDNR already have seen these preliminary CAG comments from Mike's distribution below. Please note I am expecting their March 9 meeting comments from the technical committee on are shortly after March 25 per my discussions today with Bob Nowlin. Just wanted to be sure you saw these too.

Thanks,

Bradley Vann - Remedial Project Manager

Subject: Submit Questions for EPA - Deadline March 23, 2015

The following questions were captured at the Mar. 9 meeting - if you have additional questions, please reply .

1. Regarding the asphalt and concrete plants located within the boundaries of the landfill, are they currently operational? Who owns these plants?
2. What substances/chemicals are currently being emitted from the gas flares?
